## THE ULTIMATE SHOP FOR RACERS

### ATOMIC PRO CENTERS

Atomic Pro Centers are our competence centers created exclusively for FIS members and race enthusiasts, from junior racers to World Cup competitors. You'll quickly discover it's not just the gear that makes these places special. Our experienced alpine race technicians will work with you to find the perfect ski set-up.

Our main Atomic Pro Center is located at the Atomic global headquarters in Altenmarkt, on the same site as our ski production and R&D facilities. Besides, there is also an Atomic Pro Center at SNO in Oslo and over 30 Atomic Pro Center Partners worldwide.

### RACING SERVICES

Experts with World Cup experience will share our top-end racing equipment with you and build your own individual set-up. It enables racers on the way up to experience the unique service enjoyed by our top Atomic stars – from having their skis tuned in our Race Department with Wintersteiger equipment to having their boots professional fitted by our Atomic race technicians.

### APPOINTMENT

Racing services are available in Altenmarkt and Oslo, and any of our Pro Center partners in your region. To make sure we have enough time for individual service, please book an appointment in advance.

Please find our Atomic Pro Center and Pro Center Partners listed on the back page of the catalog.

# JUNIORS TO CHAMPIONS

—  
**ONCE A JUNIOR,  
FOREVER A CHAMPION**

Supporting young, up-and-coming athletes with high-quality equipment, as well as tuning and boot fitting, has always been a top priority for Atomic. But now we're taking junior development to the next level with "Juniors To Champions", our new exclusive coaching program.

More than 60 years of experience in racing, combined with our close relationship with world-class athletes, means we know that it takes to become a professional skier: physical conditioning, mental strength, regeneration, nutrition, the perfect skis, boots, and goggles – not to forget the skills to tune those perfectly to any snow conditions.

With Juniors To Champions – or JTC – we'll support our aspiring young athletes from U12 to U18 in all these aspects of ski racing by providing access to our network of World Cup-tested experts. And prepare them for the rigorous demands of professional sports.

## **Sounds promising, right?**

So, how do we do it? Well, our target group are digital natives, so what better way to reach them than through their electronic devices?

Broadcast directly from the Atomic office, we host monthly online calls with all our juniors dealing with questions like how to stay focused on a race day, how to warm up properly, and how to store your skis over summer. What begins with boys and girls sitting individually in front of their devices quickly turned into JTC watch parties where everyone gets together in front of one phone or laptop. The ultimate aim is to build a deep sense of community among junior racers.

## **Getting the JTC spirit on snow**

While expanding knowledge at such a young age is great, racers want to race – and a coaching program wouldn't be complete without training sessions on the white, cold gold we all love. But we want JTC to be unique and different and

# JTC

ordinary “Let’s all get better” camps won’t cut it. Instead, we want our juniors to truly get used to skiing at speed, all while testing new skis and lengths.

The big advantage of getting these proteges on snow is that we can involve them in prototype tests and get feedback straight away. This enables us to react quickly and effectively. The new ICON binding is just one of many chapters of this story.

Through all these initiatives, we bring our juniors one step closer to success, both on and off the race course. And from time to time, we we’ll reward outstanding performances with exclusive access to World Cup races, including hallowed access to the treasury of success – the wax cabins of our service crew.

### **The Red(ster) line in a skier’s career**

With JTC, we want to make Redster a name that racers can rely on from U12 right up to World Cup level. Over the course of a career, coaches and teams may change. But once you’ve skied on a Redster, we do our best to make sure that it’s with you all the way.

Last but not least, JTC will also add a whole new dynamic to our Atomic Pro Centers and Pro Center Partners, which have been serving as competence centers for equipment and racing service for many years.

All in all, this makes Atomic’s commitment to junior racing pretty darned unique.

# RACE BINDING TECHNOLOGY

## ICON

### CENTRALIZED POWER TRANSFER

A wider base plate and race mounting pattern strategically position the binding screws directly under the boot to centralize and optimize power transmission. Delivering immediate power underfoot while allowing for more reactivity and response throughout the entire length of the ski, Centralized Power Transfer enables the racer to be in better control of the ski throughout the turn – in every discipline and type of course setting.

### METAL RACE PEDAL

Designed to deliver the best power transfer from boot to binding, Metal Race Pedal allows the boot to sit directly on the AFD for more direct energy transmission.

### ELEVATED BRAKES

Our Elevated Brakes get up and out of the way, tucked in closer to the heelpiece of your binding, letting you ski more aggressive edge angles with less risk of catching the snow.

### AUTOMATIC TOE ADAPTION

The toe adapts automatically to your alpine normed boot height and width and ensures constant release values, even on worn out boots.

## REDSTER FIS USER RECOMMENDATIONS 2024 (SKI, BINDING, BOOT)

Ski selection of FIS products, both length and model, will be always very individual and a subjective decision. We noticed some common trends and following chart should help you to make the right decisions. The optimal skis FIS model and length is determined by the ability, the weight and also the strength of the user.
